

Sprint 2: Manual Testing Documentation

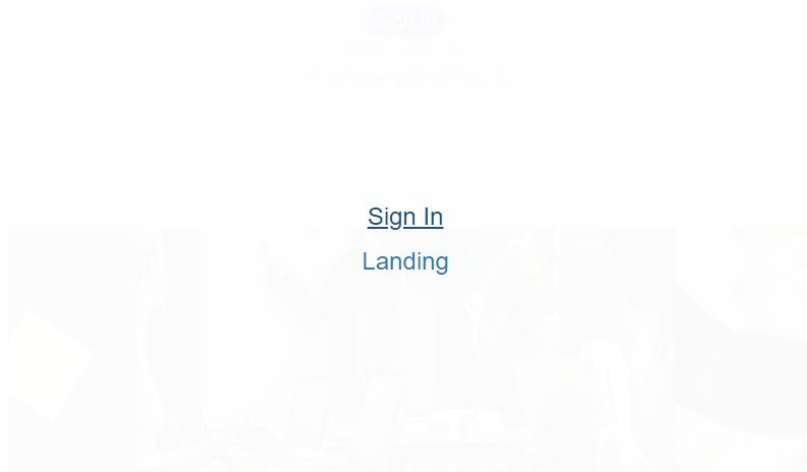

This document will describe our manual testing process, which was done according to our second sprint planning document. Each user story will include a procedure to test, inputs used and both a description and reasoning for edge cases used. If the expected and actual outputs differ, there will be a brief description about how the bug was fixed.

Testing Set #1: Uploading a resume.

Testing Procedure:

- Head to the sign in page
- Head to the sign up page
- Select student where it asks who you are
- Fill out the necessary textboxes
- Select the “Choose File” button where it says to upload resume
- Choose a .pdf file from your computer
- Hit the sign up button
- Head to the Account page and click the link to show the resume
- The resume will open up in a new tab.

1. Navigating to the sign in page works perfectly fine; picture below.

2. Navigating to the sign up page works perfectly fine; picture below.

5. Select the Choose File button. Success.

Upload your resume as a .pdf
Choose File No file chosen

6. I then selected a pdf file from my computer successfully.

7. Following this, the sign up button now works.

A screenshot of a web form with a light gray background. The form contains the following elements:

- Text: 'Upload your resume as a .pdf' in blue.
- Form element: A 'Choose File' button followed by the text 'ResumeFinal2019.pdf'.
- Text: 'Please upload a photo of yourself as a .PNG' in blue.
- Form element: A 'Choose File' button followed by the text 'Code.PNG'.
- Form element: A dropdown menu with 'Full Time' selected.
- Text: 'Please enter which days you will be able start and end' in blue.
- Form elements: Two date input fields containing '03/21/2019' and '03/28/2019'.
- Form element: A text input field containing '100'.
- Form element: A blue 'Sign Up' button.

8. Once the resume has been uploaded, it can be viewed from the account page.
